

WEATHERIZATION SERVICES

JOB OPENING

- **Weatherization Assessor/Worker II**
- **Weatherization Specialist III**

Weatherization is designed to provide energy efficient measures to low-income households. The installation of these measures not only makes these homes more energy efficient but also reduces energy usage and energy cost.

Maximizing self-sufficiency with families and individuals through high-quality programs and advocacy in our communities.

Since opening its doors in 1965, MAAC has been dedicated to assisting children, youth and adults who have found themselves without: some in a cycle of poverty, searching for hope and support to improve themselves and to establish self-sufficient lives.
